PRECISION FILTRATION PRODUCTS OFFERS COST EFFECTIVE SOLUTIONS FOR ALL OF YOUR FILTRATION NEEDS.

Filters For All Industrial Applications:

Air Filtration - Standard HEPA Filters, Custom HEPA Filters, Blower Filters, Compressor Filters, Compressed Air Filters, Coalescing Filters, Air Intake Filters, Exhaust Filters, Mist Eliminator Filters, Vacuum Pump Filters, Dust Collector Cartridges, and Dust Collector Bags.

Aviation and Hydrocarbon Filtration - We work with the leading API approved manufacturers to offer a complete line of products for the aviation industry to ensure that clean, dry fuel is provided every step of the way - from the refinery to the wing tip.

Liquid - Process Water Filters, Waste Water Filtration, Carbon Filters, Hydraulic Filters, Coolant Filtration, Lube Oil Filters, Amine Filters, Filtration Systems for Petroleum Blending and Refining, Coalescing Filters, Separators, Clay Bags, Clay Canisters, Pipeline Filters, and Strainers.

Gas - Natural gas filters are designed to remove the impurities such as pipe scale, iron sulfide, hydrates, water, liquid hydrocarbons, sulfur products and carbon dioxide to ensure the quality. Natural Gas, Process Stream, Combustion, Vent Probe, API & IP Applications, Coalescing, Separation, and Refueling.

Portable Filtration/Filter Carts - We provide a full range of portable filtration systems to meet every critical industry filtration need. Our portable filter carts are ideal for use in industrial plants and in other applications because of their versatility and reliability. Portable filtration carts are used where hydraulic fluids, insulating oils, lubricating oils and coolants are found.

Custom OEM Manufacturing - Panel Filters, Disc Filters, Filter Elements, Filter Cartridges, HEPA Filters, Coalescing Filters, Air Filters, Liquid Filters, Water Filters, Custom Designed Filters, Strainer Filters, Pleated Filters, Synthetic Filter Media, Molded End, Metal End, and Custom OEM Packaging.

On-Site Filter Surveys & Total Filtration Management
Equipment Reconditioning/Refurbishing Program
Filter Cleaning and Refurbishing

Gearbox and Hydraulic Oil Change-Out Program
High Flow-Turbulent Oil Flushing Service
Filter Commodity Consolidation

Private Labeling/Drop Ship Program

Pneumatic Filter Carts

Vacuum Dehydrators

Multi-Round Filter Vessels

Portable Filter Bag Hous-

Filter Carts

Emergency Rental Filters For Most Applications!

PERFORMANCE FILTRATION PRODUCTS MANUFACTURES CUSTOM OEM FILTRATION PRODUCTS TO MEET ALL OF YOUR FILTRATION NEEDS!

Proudly Made

In The U.S.A.

- PFP custom design or we build to your specification
- Unique high performance filter medias
- Intake screens for velocity stacks
- High performance intake filter elements for most carburetors
- Custom breather elements
- Custom filter for fuel & oil
- Custom colors

We manufacture custom cartridges, panels, bag and discs to meet your specifications. We have a variety of filter medias available: HEPA, Pleated Paper, Pleated Polyester, Polypropylene, and Stainless Steel Wire Mesh.

Our filter media has distinct advantages and characteristics that make it the ideal choice:

- High Air Flows, Increased Horsepower
- Increased Efficiency
- Custom Engraving
- Cleanable, Reusable
- "Oil-Free" Filter Media
- Dyed Custom Colors

From concept to completion, prototype to production, we specialize in long and short run custom OEM filtration products.

MOBILE FILTRATION EQUIPMENT

PERFORMANCE FILTRATION PRODUCTS MANUFACTURES CUSTOM MOBILE FILTRATION EQUIPMENT FOR MOST APPLICATIONS.

Ideal for the following applications:

Particulate and Water Removal
 Varnishing
 Complete System Flushing

Turbine Oil Conditioning
 Hydraulic Reservoir Maintenance
 Vacuum Dehydration

Refinery Upset Conditions
 High Viscosity Lubrication and Hydraulic Oils
 ISO Codes/Fluid Cleanliness

Liquid Coalescing and Separating
 Transfer and Replenishment of New Fluids
 Many More!

DRUM TOP FILTRATION UNITS

PNEUMATIC FILTER CARTS

2-STAGE FLUSHING CARTS

VACUUM DEHYDRATORS

COOLANT FILTER CARTS

TRANSFER/ REPLENISHMENT

MINI MAX HAND HELD FILTER UNIT
