

STANDARD DESIGN FEATURES

- Meet API/IP 1583 effluent requirements
- Initial pressure drop below IP limits for longer filter life
- Maximum pressure rating: 50 psi
- 1/2 micron nominal filtration rating at 98% efficiency
- Removes free and emulsified water
- All metal components are treated against corrosion
- Gaskets are Buna-N

Facet's Fuel-Gard® Aviation Spin-On Filters perform three jobs to give you clean, dry fuel. They absorb free and emulsified water, remove ultra-fine solids even when surfactants and fuel additives are present, and shut down system flow when hit with a localized slug of water. The filters are designed to flow at a rate of 13 gpm (FGS-O-405) and 15 gpm (FGS-O-409).

A variety of head styles and flow rates are available. Please contact your local Facet representative for more information.

MODEL	DIAMETER	LENGTH	THREAD	WEIGHT	VELCON REPLACEMENT
FGS-O-405	3¾"	5½"	1" - 12 NF	1¼ lbs.	ACO-40501SPK
FGS-O-409	3¾"	8½"	1¾" - 12 NF	1½ lbs.	ACO-40901SPK
