

Jumbo Cartridge Housing

The ideal filter housings for optimum convenience and savings! Jumbo cartridge filter housings are designed to accept a single cartridge for easy cartridge installation and replacement. Jumbo cartridge filters are available with convenient band-clamp and swing-bolt lid closures; 304L and 316L stainless steel and 150 or 300 psi pressure ratings. Pipe fittings are 2" FNPT, with pressure gauges provided on both the inlet and outlet fittings. Protective poly coat over stainless steel is standard finish. Electro-polishing and passivation are available by special order. Replacement cartridges are cleanable and reusable.

Features

- Accepts one, single "jumbo" cartridge for optimum convenience
- Heavy-duty stainless steel construction for durability
- 304L and 316L stainless steel available
- Band clamp or swing-bolt lid closures
- 2" FNPT pipe fittings readily accessible for easy installation
- Pressure gauges installed on both inlet and outlet fittings
- Superior sealing provided by threaded compression cap & stand-off ring
- Mounting legs are standard
- Electro-polishing and passivation available by special order
- Flow rates to 150 GPM
- Accepts 30-3/4" and 29-3/4" length cartridges

Adjustable compression cap Provides superior sealing at both cartridge ends.

Models

Model No.	Flow Rate GPM	CTG Length	Ship Weight	Carton Size
SJCH-40*	50	(1) "40"	43 lb.	18x18x25
